

INGENIOUS

IP & patent NFT Marketplace

The Venetian Patent Statute of 1474 is considered the earliest codified patent system in the world for "any new and ingenious device (or method), not previously made", provided it was useful

THE PROBLEM...

World Bank.,2020

The scientific community in 3rd world countries, mainly in Africa and LATAM, faces huge problems finding and connecting investors interested in scientific research.

THE SOLUTION ✨

IP & Patents NFT Marketplace, creating the NFT EIP-1155-IPP variation designed by the DeSci community for the DeSci community, focusing on: Fraction Selling, Profit Distribution and Tokenized IP & Patent.

■ FUND OPPORTUNITIES

PRE-IP NFT'S

■ INVEST IN PATENTS

IP NFT'S

DESCI
MEXICO

THE INVESTMENTS

An investor (or a SciDegen) can search for PRE-IP NFTs (not yet patented) to gain value when it gets IP-NFT (patented), what also triggers the NFT mutiplicator by "N" that will allow the investor to resell new portions of the IP.

Investors Income Sources: Resell, Portion Selling, Profit Distribution.

Scientists Income Sources: Mint, Reselling Fees, Uprun form initial auto-allocation

MEET THE ERC-1155-IPP (IP & PATENT) ✨

The variants from the Standard:

1. On-Chain Metadata satisfying IP & Patent Schema.
2. Transfer protection with a low "transfer fee" CAP (e.g. 0.1 ETH).
3. Tokens amount multiplier for the "PRE-IP" to "IP" token state update.
4. Profit Auto-Distribution.
